

RECHARGE YOURSELF

When you lead a busy life it's easy for your energy levels to fall out of balance. That's why it is vital that you take a few moments to relax, recharge yourself and enjoy a little 'me time'. The natural way to do that is by enjoying the warmth and vitality that you get from sunlight.

Sunlight is an integral part of a healthy lifestyle, just like getting enough sleep, exercising regularly and eating well. Sunlight lifts our mood and makes us feel great. It gives us a boost of energy throughout the day and helps to produce Vitamin D3 throughout our body.

In fact, sunlight can have such a powerful effect on well-being, it's what has inspired us to design some of the most innovative tanning products in the world. From relaxing lay-down beds that will help you to build up a healthy tan, to CollaShower stand-ups that give you freedom to move and rejuvenate. All while you recharge yourself and enjoy some precious personal time.
