

TRUSCULPT flex PR Q&A

Q: IS THERE AN IDEAL CANDIDATE FOR TRUSCULPT® flex?

A: Most adult men and women who are looking to increase muscle tone or mass can benefit from truSculpt® flex treatments. During a consultation, we will discuss if the patient is a candidate, based on their health and medical history.

Q: HOW LONG DOES A PATIENT NEED TO WAIT IN ORDER TO SEE RESULTS?

A: Results may be seen after the second session with maximum results visible 8-12 weeks after the last session.

Q: CAN YOU DESCRIBE THE TREATMENT PROCESS AND THE SENSATION THAT IS FELT DURING THE TREATMENT?

A: As the treatment begins, patients feel a gentle contraction sensation and, as the intensity slowly increases, the muscle contraction intensifies. The results are even and consistent.

Q: HOW MANY TREATMENTS ARE TYPICALLY NEEDED? IF MORE THAN ONE, HOW MUCH TIME SHOULD THERE BE BETWEEN TREATMENTS?

A: Up to eight areas can be treated in each 45-minute session. Remarkable results can be achieved with as little as four treatments. Additional treatments may be required to achieve the personalized results you desire. Treatments are spaced at least two days apart and two treatments per week are ideal.

Q: IS THERE ANY POST-TREATMENT DOWNTIME?

A: Post-procedure, patients may notice tingling in the areas treated for up to a few hours and/or slight muscle soreness or tenderness for 24-72 hours.

Q: ARE THERE ANY RESTRICTIONS TO ACTIVITIES RECOMMENDED AFTER THE TREATMENT?

A: No. Patients are able to immediately return to normal activities.

Q: HOW DOES TRUSCULPT flex DIFFER FROM OTHER MUSCLE SCULPTING TREATMENTS ON THE MARKET?

A: Fast - Up to eight areas can be treated in each 45-minute session.

B: Safe - The unique truControl™ technology provides safe and consistent results through targeted, selective, and customizable delivery with less energy needed.

C: Effective - Three treatment mode options are available to customize the results to each patient's goals.

D: Muscle thickness increase - Clinical studies have shown an average of 30% increase in muscle mass.¹

E: Versatile - Best of all, I can personalize the treatment for different fitness levels, body shapes and goals.

Q: WHAT IS THE AVERAGE COST FOR THE TREATMENT?

A: Costs may vary depending on a patient's needs. Our typical charge is \$[XX]+ per treatment.

Q: WHAT FEEDBACK DO YOUR PATIENTS GIVE YOU ABOUT THEIR RESULTS?

A: My patients describe their results as [INSERT PATIENT COMMENTS].
